INTRODUCTION

Internship experiences in the field of criminal justice serve multiple purposes. The UCCS BACJ intern will develop self-directed learning skills and gain a better understanding and appreciation of knowledge gained in the classroom, and be exposed to and better understand the complexities of the criminal justice system.

Toward that end, the following is a list of goals and objectives of the criminal justice internship:

- I. To provide the UCCS BACJ intern with insight into the day-to-day activities of criminal justice and social service agencies and organizations and to provide a realistic perspective of the complex nature of such agencies and organizations;
- II. To provide the intern a greater appreciation of knowledge gained in the classroom and a realization of the importance of that knowledge as it applies to the administration of criminal justice;
- III. To provide the intern with a sense of career orientation by creating a heightened sense of desire for their chosen field; and
- IV. To enable the student to assess his/her skills and abilities against tasks of real-work situations.

Interning in criminal justice and social service agencies and organizations may also serve to provide the student with connections for future employment opportunities, or simply help the

intern decide on a specific area of interest. UCCS BACJ internships will not generally be paid positions.

Internships provide all students with an opportunity to integrate academic studies with the day-to-day operations with a criminal justice agency or organization. During an internship, students are similar to employees of the agency or organization. They are assigned duties by their supervisor and are expected to relate to that supervisor as any employee would. While interns are not actual employees, supervisors do expect some return on their investment in students and do assign work that is beneficial to the agency/organization, and critical to the students learning in a “real world environment”.

WHO IS ELIGIBLE?

To be eligible for an undergraduate BACJ internship, a student will have completed a minimum of 60 University credits. Students will also have completed a minimum of 18 hours of BACJ coursework, including CJ 1001 and CJ 2041, prior to being allowed to participate in an internship. If you have any questions regarding these core classes, please feel free to contact the Internship Coordinator to clarify the exact requirements. Internship Coordinator, Mr. Rod Walker oversees all law enforcement and the El Paso County District Attorney’s office internship requests. Internship Coordinator, Dr. Henriikka Weir oversees all other internship requests. Students applying for an internship must provide the Internship Coordinator with an unofficial UCCS transcript confirming completion of the minimum University credits and prerequisites. The Internship Coordinator may waive the BACJ requirements on a case by case basis if the student has at least one year of full time paid criminal justice work related experience. The Internship Coordinator may also approve hours worked as a volunteer within an internship agency prior to registering for the internship. The hours may be counted only if they are completed within the previous semester (i.e., a student works as a volunteer with an internship agency during the spring term and registers for the internship during the summer term, the additional hours worked as a volunteer during spring term may count toward the summer internship. The hours will not count toward a fall internship.

Students minoring in Criminal Justice may also complete an internship. Students must provide a copy of unofficial transcript confirming completion of 9 hours of course work including CJ 1001 and CJ 2041 prior to requesting placement.

Internship placements are first reserved for BACJ students. CJ minors will be considered on a case by case basis, as determined by internship placement availability and approval of the Internship Coordinator.

Students must complete the Internship Application and return it to the Internship Coordinator, along with a resume. The Internship Coordinator will submit the application and resume to the appropriate internship agency for consideration and approval. **The application must be typed (no hand written applications will be accepted).** Once a student has been accepted for an internship, the Internship Coordinator will provide the student with a permission number to enroll in the course.

Many agencies, especially federal agencies and law enforcement organizations, do not allow students with criminal records or drug use within the past five to seven years to participate in internships. Further, for a number of federal and local law enforcement agencies, a complete background check, including credit check, will be required. As such students should begin the process of applying for an internship at least two months before the start of the semester.

HOW TO GET AN INTERNSHIP

A student's first step in getting an internship is to consider personal career aspirations. Students should make a general decision about the field of interest (i.e. corrections, courts, law enforcement, law, victim services, crime prevention etc.). The student should meet with the Internship Coordinator to discuss internship options. The Internship Coordinator has developed an internship database which will aid the student in determining which agency best fits his/her interest. Students may consider agencies from the database or, after discussing internship options with the Internship Coordinator complete an internship with an agency not listed in the database. The student must make contact with the agency to confirm the agency is willing to oversee an internship. The student must provide the Internship Coordinator with the name, address, phone number and e-mail address of the agency contact person, in order for the Internship Coordinator to confirm the agency is willing to enter an internship agreement with the School of Public Affairs. The agency must be approved by the Internship Coordinator. Students may proceed with the internship after all appropriate paperwork with the agency and the Internship Coordinator is approved and completed. The student must provide the agency with the Internship Agreement noted on page 15 of this manual.

The initial contact with the potential agency should answer the following questions:

1. Does the agency/organization provide internship opportunities?
2. If not, would the agency/organization consider an internship program?
3. Are there any special conditions associated with the agency's/organization's internship program?
4. Is the agency willing to sign an internship agreement?

The internship position interview is crucially important, and the student should be prepared to ask questions and to show genuine interest in the agency/organization. The student should wear appropriate professional attire for the interview. After receiving a response from these preliminary contacts, the student should discuss what has happened with the Internship Coordinator who will, in turn, contact the agency/organization to make final arrangements and commitments.

TYPES OF AGENCIES/ORGANIZATIONS

The types of agencies/organizations with which the student can do a UCCS BACJ internship are extensive and are decided, to a large extent, by the student, upon approval by the Internship Coordinator. Typically, UCCS BACJ internships are done in the areas of courts, law enforcement agencies, corrections, law firms, social service agencies, and victim rights organizations.

The UCCS BACJ School of Public Affairs has developed a database of agencies and organizations that are available for internships. The database will continue to expand as more agencies / organizations become available. This list will be a good place to start, but, if the student has interest in an agency or organization that is not on the list, we will certainly look into the possibility of internships with that agency/organization.

AGENCY REQUIREMENTS

Requirements vary from agency to agency. Be prepared to face interviews, psychological exams, physicals, polygraphs, background investigations, including financial and drug screenings. Each agency will determine whether you pass or fail their required tests.

PERSONAL/PROFESSIONAL RESPONSIBILITIES OF UCCS BACJ INTERNS

Agencies that host criminal justice internships place great emphasis on the need for privacy, confidentiality, and personal integrity. Therefore, for a student to successfully complete an internship with a criminal justice agency or organization, the student must be able to demonstrate high levels of maturity and integrity. Additionally, UCCS BACJ interns must possess the emotional stability necessary to deal with the kind of unpleasant situations that are occasionally encountered in the criminal justice system. To facilitate good rapport with the agency/organization, interns must also have good listening and interpersonal skills. All UCCS BACJ interns must abide by the following rules:

1. Always dress appropriately;
2. Do not use profanity, regardless of what others are doing;
3. Always be on time and do not leave early;
4. Do not allow yourself to be put into dangerous situations;
5. Do not become involved in office gossip;
6. Ask questions and show enthusiasm;
7. Do not discuss sensitive information with people outside your office;
8. Do not become argumentative or disrespectful; and
9. Be honest and forthright about any unusual situations.

All BACJ student interns and CJ minors are required to complete a minimum of 160 clock hours to earn 4 University credits. Students are required to type and keep a daily journal containing a summary of daily duties and accomplishments. The daily journal must include the date, starting and ending time and the total hours worked for the day. Additionally, the supervisor overseeing the internship must sign the "Verification of Hours" form confirming the total hours completed.

MUTUAL RESPONSIBILITIES

The primary responsibility of the internship agency or organization is to permit the student to observe the central functions of the agency or organization. Other responsibilities of the

internship agency or organization are to schedule student's work; to mentor and direct the student's work; to evaluate the student's work; and to ensure that the intern's experience is productive.

It is the responsibility of the student to immediately contact the Internship Coordinator if the student believes that the agency is not fulfilling major programmatic responsibilities or if other issues arise that are deemed to be serious by the student. While no simple solutions exist for these types of problems, the Internship Coordinator will work with the student to remedy the situation.

Conversely, should the student fail to fulfill his/her responsibilities, the internship may be terminated. Examples of infractions which may require action are: the student not showing up for assignments; the student engaging in behavior deemed inappropriate by the agency or organization; engaging in illegal or immoral behavior, as determined by the agency or organization; or not performing duties as requested by the agency or organization.

ACADEMIC COMPONENT

The internship program offers BACJ students and students minoring in CJ an opportunity to gain marketable experience while earning four credit hours toward their major requirement.

In addition to the work performed at the agency, students are required to complete the academic assignments listed in the Internship Required Activities and Materials.

UCCS BACJ INTERNSHIP PROCESS

Preparing for the internship:

1. Students will assess their interests within Criminal Justice and their career goals.
2. Students will arrange to meet with the Internship Coordinator to discuss internship opportunities.
3. Students will complete the " Internship Application" form and return to the Internship Coordinator at least two months before the start of the semester in which the student plans to complete the internship. If the student is interested in a federal internship, the application must be submitted at least three months before the start of the semester. Students will also need to complete a federal application.
4. If the student is pursuing an internship with an agency not listed in the Internship Manual, the student will arrange to have the "Internship Agreement" form completed by the agency and returned to the Internship Coordinator.
5. Complete and submit to the Internship Coordinator the Certificate of Insurance for Academic Experience Form.

Internship Credit: 4 credit hour minimum / 8 credit hour maximum

Students majoring in criminal justice must enroll in an initial minimum 4 credit hour internship. Students enrolled in the initial required 4 credit hour internship must complete

160 clock hours of internship work. A student may register for more than 4 credit hours during the initial internship. For each additional 1 hour credit, students must complete an additional 40 clock hours per credit hour. Therefore, if a student wishes to complete 6 credit hours during the initial internship, the student must complete 240 clock hours of internship work. If you have any questions regarding credit hours or the clock hours associated with the internship, please contact the Internship Coordinator. The maximum credit hours a student may complete as part of the internship is 8.

Internship Credit Hours:

- 1 hour of internship credit requires completion of 40 clock hours.**
- 2 hours of internship credit requires completion of 80 clock hours.**
- 3 hours of internship credit requires completion of 120 clock hours.**
- 4 hours of internship credit requires completion of 160 clock hours.**
- 5 hours of internship credit requires completion of 200 clock hours.**
- 6 hours of internship credit requires completion of 240 clock hours.**
- 7 hours of internship credit requires completion of 280 clock hours.**
- 8 hours of internship credit requires completion of 320 clock hours.**

Student Internships Under Colorado Workers Compensation:

CRS 8-40-302¹. (7) (a) Any employer, as defined in section 8-40-203, who enters into a bona fide cooperative education or student internship program sponsored by an educational institution for the purpose of providing on-the-job training for students shall be deemed an employer of such students for the purposes of workers' compensation and liability insurance pursuant to articles 40 to 47 of this title.

(b) If the student placed in an on-the-job training program does not receive any pay or remuneration from the employer, the educational institution sponsoring the student in the cooperative education or student internship program shall insure the student through the institution's workers' compensation and liability insurance or enter into negotiations with the employer for the purpose of arriving at a reasonable level of compensation to the employer for the employer's expense of providing workers' compensation and liability insurance while such student is participating in on-the-job training with said employer. This paragraph (b) shall not apply to a student teacher participating in a program authorized pursuant to article 62 of title 22, C.R.S.

(c) As used in this subsection (7), "cooperative education or student internship program" means a program sponsored by an educational institution in which a student is taught through a coordinated combination of specialized in-the-school instruction provided through an educational institution by qualified teachers and on-the-job training provided through a local

¹ Colorado Workers' Compensation Statute

business, agency, or organization or any governmental agency in cooperation with the educational institution.

During the internship:

1. BACJ students will complete a minimum of 160 clock hours of work to earn 4 University credits.
2. Students will keep track of their daily hours worked. The supervisor from the agency/organization must complete the Verification of Hours form and submit it to the Internship Coordinator.
3. The student will also complete a daily journal summarizing work done. The journal must be submitted to the Internship Coordinator during the week prior to final exams.
4. The student should also keep a copy of these forms for their internship portfolio.

At the conclusion of the internship:

1. Interns are required to keep a daily journal which includes the date, times, and a description of the activities the intern engaged in each day of the internship (daily journals should be approximately ½ page typewritten on average). These journals will be included in the internship portfolio that will be handed in during the week prior to final exams and evaluated as part of the intern's grade.
2. The intern also needs to answer the questions noted in C. 3. of the Internship Required Activities and Material.
3. At the conclusion of the internship the supervisor at the sponsoring agency will complete an "Intern Evaluation Form."
4. All material (daily journal, text book answers, and supervisor's evaluation) is due to the Internship Coordinator during the week prior to final exams.

Grading criteria:

Grading is based on the agency evaluation of student performance, journal entries, submission of hours completed, and response to the questions noted in C. 3 of the Internship Required Activities and Material. A letter grade of "A" "B" "C" "D" or "F" will be assigned.

CONCLUSION

Internships give students the opportunity to work on enhancing their career goals by getting first-hand experience in their chosen field. It gives them the opportunity to determine if this is the type of work they wish to do. It also gives students an opportunity to build up contacts and start networking in their field. One of the goals of the internship is to help students transition to professional work life, they will be able to learn and implement those behaviors expected of professionals, including adherence to deadlines, conducting themselves in a professional manner with respect to dress and communication, and honoring commitments. The assignments that are included with the internship program through the School of Public Affairs

BACJ program will further give them the opportunity to apply the knowledge they have gained, and the experiences they have had, into academic output for credit toward their degree.
